 sujalvish908@gmail.com

 WIP

 Rathodi Talav, Malad West, Mumbai - 400095

## SKILLS

Python	PHP
Computer Vision	MySQL
Matplotlib	Video Editing
NumPy	Photo Editing

## EDUCATION

### Artificial Intelligence & Data Science

#### Thakur College of Engineering & Technology

2022 - 2025

Bachelor of Technology - BTech, Artificial Intelligence

### Information Technology

#### Thakur Polytechnic

2019 - 2022

Diploma of Education, Information Technology

## LANGUAGES

Python	<div></div>
Java	<div></div>
C++	<div></div>

## PROFILE

- Student pursuing Artificial Intelligence & Data Science with a strong passion for the field.
- YouTuber creating content to inspire others with over 15k Subscribers.
- Skilled in Python programming, specializing in NumPy, Seaborn, and Matplotlib.
- Utilize data analysis and visualization to draw valuable insights.
- Constantly learning and staying updated with the latest advancements in AI & Data Science.
- Eager to collaborate and connect with like-minded professionals in the industry.
- Seeking opportunities to contribute and make an impact in the transformative world of AI & Data Science.

## WORK EXPERIENCE

### Data Scientist Intern

Prodigy Infotech

2024 - 2024

- As a Data Scientist Intern at Prodigy Infotech, I actively contributed to the organization's data-driven decision-making processes. My role involved collecting, cleaning, and analyzing large datasets to extract meaningful insights that informed business strategies. I applied statistical techniques and machine learning algorithms to identify patterns, trends, and correlations in the data, providing valuable inputs for enhancing operational efficiency.
- During my internship, I collaborated with cross-functional teams to understand business requirements and translate them into analytical solutions. I utilized programming languages such as Python and R to develop models for predictive analytics and statistical analysis. Additionally, I gained hands-on experience in data visualization tools like Tableau, effectively communicating complex findings to non-technical stakeholders.
- Working at Prodigy Infotech allowed me to further develop my analytical and problem-solving skills in a real-world business context. I successfully completed projects that had a direct impact on improving decision-making processes, showcasing my ability to apply theoretical knowledge to practical situations. This internship not only expanded my technical expertise but also honed my teamwork and communication skills in a professional setting.

### Intern

Static.Int Educare

2021 - 2021

- During my internship at Static.Int Educare, I acquired valuable skills in web development and programming. I gained hands-on experience working with Cascading Style Sheets (CSS) and HTML to design and structure web pages, enhancing my ability to create visually appealing and user-friendly interfaces.
- As an intern, I had the opportunity to delve into programming languages such as Java and Python. This experience allowed me to strengthen my coding proficiency and apply these languages to real-world projects. I actively participated in engineering tasks, applying theoretical knowledge to practical scenarios and contributing to the development of innovative solutions.
- Throughout my internship, I demonstrated a commitment to continuous learning, staying updated with the latest industry trends and technologies. This experience at Static.Int Educare not only expanded my technical skill set but also provided insights into the dynamic field of web development and programming. It was a valuable opportunity that allowed me to contribute to the organization's goals while honing my abilities in a professional environment.
